

Docent Training & Internships in Conservation Education

Pasadena Audubon's Bird Science Program incorporates hands-on outdoor activities and live educational owls to bring the excitement of birds to school children in our community. We are looking for interns and volunteers to assist us with guiding elementary school kids as they learn about birds and the ecosystem.

While prior experience is not necessary, an interest in conservation education is highly desirable!

Note: Must be over 18, willing to take a TB test, and legally able to work with children.

Classes for Docent Training & Internship

Five classes on **Thursdays, from September 7 to October 5, 9 am to 12 pm**

Location: Eaton Canyon Nature Center (The last class at Peck Road Park)

You will learn about:

- * Bird Science Program curriculum
- * Local birds and birding
- * Birds and botany
- * How to safely handle educational owls

Internship:

Interns will assist in teaching in-class lessons and guiding outdoor nature walks—great for college students who want to further their education with leadership skills and gain experience in outdoor education.

A scholarship of \$800 will be awarded to interns who complete:

- * 50 hours between September 2023 and May 2024
- * A final project.

**Submit a cover letter & resume
(optional letter of reference)
at: www.bit.ly/pasinternship**

Docent Training:

Docents will assist in guiding elementary school students on field trips to explore our local plants and wildlife through scavenger hunts, nature walks, and birding. Program runs during school hours.

Class Fee: \$45 (No one will be turned away if unable to pay. Contact us!)
